SKILLS

Front-End : HTML,CSS,Javascript,JQuery

Frameworks : Bootstrap,React js

Back-End : Java

Java Frameworks : SpringBoot,Hibernate

Database : MYSQL

SOFT SKILLS

Team Work | Time Management |

Adaptability | Communication

LANGUAGE

- English
- Kannada

EDUCATION

BE (Electronics & Communication)

Visvesvaraya Technological University

July-2019

PROFILE

As a BE graduate with passion for technology and deep fascination for creating seamless digital experience ,I am eager to embark on a career as a Full Stack Developer. During my academic and course, I developed a strong foundation in programming and web development and I'm excited to apply my skills and contribute to building innovative solutions in the tech industry .

PROJECTS

Course Management System

The Course Management System allows students to view available courses, , view the faculty , and add desired courses to their cart for enrollment.

Key Responsibilities :

- Created front-end user interface, incorporating responsive design principals for accessibility on various devices
- Developed the back-end logic using technologies ensuring data integrity and system reliability
- Utilized a MYSQL database to store a record

Tech Stack : HTML | CSS | Bootstrap | Springboot | Hibernate

AI Image Generator

The AI image generator is a web application that utilizes the capabilities of an AI-based image generation API to create images based on user input.

Key Responsibilities :

- Responsible for end-to-end development, integration, and deployment of a web-based AI image generator, ensuring seamless user interaction and image quality.

Tech Stack : HTML | CSS | Javascript | API Integration

CERTIFICATION

FULL STACK Developer

Apponix Academy-Hubli

April 2023-September 2023

INTERNSHIP

Embedded and Robotics

Gopalan Skill Academy - Bangalore
